DETAILED ACTION

Response to Amendment

The amendment filed 09/04/2007 was entered.

The declaration under 37 CFR 1.132 filed 09/04/2007 is sufficient to overcome the rejection of claim 9 based upon Allemand et al. (US Patent 4,461,952).

Response to Arguments

Applicant's arguments, see REMARKS, filed 09/04/2007, with respect to claims 9, 17, 18 and 26 have been fully considered and are persuasive. The previous rejections have been withdrawn.

Allowable Subject Matter

Claims 9 – 15 and 17 – 27 are allowed.

The following is an examiner's statement of reasons for allowance:

With regards to claims 9, 17, 18 and 26, the prior art on record fails to expressly disclose or render obvious a portable watch comprising a Geiger-Muller counter, a microcontroller for calculating a radiation dose rate, a voltage converter, and a pulse former, in combination with the rest of the claimed limitations. As such, applicants disclosure is a novel and nonobviousness improvement over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
